

## **IMO Level II Course – Response to Oil Spills for Supervisors & On-Scene Commanders**

The primary role and responsibility of the Supervisor or On- Scene Commander (OSC) is to co-ordinate and manage the response to an oil spill. The Supervisor or OSC is responsible for the emergency response team, developing and implementing a response organisation, co-ordinating the work of other agencies involved in the response, deciding on the response strategies and tactics to be used to clean up the spilled oil and co-ordinating the collection of information necessary to recover costs. These and other demands will be made on the Supervisor or OSC during the incident and will be addressed in the course.

The course focuses on, and provides a broad range of knowledge and allows the participants to develop the skills to effectively manage or supervise an oil spill response team. The programme will include desktop exercises as well as real life deployment exercises so that delegates have the opportunity to test and assess their skills. The course is aimed at dedicated on-scene commanders and supervisors. Any personnel designated to coordinate on-shore or offshore field activities.

The following elements will be covered during the course

- Oil spill behaviour, fate and effects
- Environmental Impact
- Contingency planning, response management and organisation
- Spill Assessment
- Operations planning
- Responder safety
- Response strategies
- Waste transfer, storage and disposal
- Liability, claims and compensation
- Dealing with the media, NGOs and the community
- Response deactivation & post incident briefing
- Table top and practical exercises

# IMO Level II Course - Programme

## Day 1

09:00 - 09:30	Course registration and Introduction
09:30 - 10:00	Overview of spill response
10:00 - 10:30	Contingency planning response management and organisation
10:30 - 10:45	<i>Break</i>
10:45 - 11:15	Behaviour, fate and effects of spilled oil
12:30 - 13:00	<i>Lunch</i>
13:00 - 14:00	Spill Assessment
14:00 - 15:00	Operations planning
15:00 - 16:00	Oil spill response options

## DAY 2

09:00 - 09:15	Recap of previous days topics
09:15 - 10:30	Containment, protection & recovery of oil
10:30 - 10:45	<i>Break</i>
10:45 - 12:30	Shoreline clean-up
12:30 - 13:00	<i>Lunch</i>
13:00 - 13:30	Dispersants
13:30 - 14:00	In-situ burning
14:00 - 15:00	Site safety
15:00 - 15:30	Waste management
15:30 - 16:00	Termination of response

## DAY 3

09:00 - 09:15	Recap of previous days topics
09:15 - 09:30	Exercise briefing
09:30 - 15:00	Deployment Exercise: <ul style="list-style-type: none"><li>▪ No.1: Shoreline Assessment &amp; Site Control</li><li>▪ No.2: Shoreline Deployment - sand shoreline</li></ul>

Note: Refreshments and lunch will be onsite

## DAY 4

09:00 - 09:15	Recap of previous days topics
09:15 - 09:30	Exercise briefing
09:30 - 14:00	Deployment Exercise: <ul style="list-style-type: none"><li>▪ No.3: Shoreline Deployment - manmade shoreline</li></ul>

Note: Refreshments and lunch will be onsite

14:30 - 15:00	End of course closeout and evaluation
